

For Immediate Release
November 20, 2017

Bird Dog Distributors LLC is pleased to announce the successful acquisition and subsequent complete integration of Unifuse products and services into its operations over this past year. This transition has resulted in a total overhaul of the Unifuse VIM equipment, the installation of additional machinery and the implementation of lean manufacturing processes. As a part of this transition, an entirely new website has just launched, offering streamlined search capabilities, a dedicated RFQ form and a user-friendly, consistent format accessible to any desktop, tablet, or smartphone.

The Unifuse brand will continue to be utilized as we look to build on the growing demand for vibrational molded plastics and further enhance the portfolio of products and services offered. Unifuse plastics have been in the marketplace for over thirty-years and continue to provide unmatched durability and value to clients.

Bird Dog is a manufacturer and distributor of basic medical and surgical supplies, pharmaceuticals and emergency field kits. Bird Dog's primary focus of offering value-added services such as compiling and packing customized parts and kits (pre-pacs), offering small order sizes and the ability to ship multiple items on a single pallet is **perfectly aligned** with the Unifuse business model of value-added, low volume and customized production. Bird Dog understands the logistical intricacies associated with its customer base and strives to deliver best-in-class service.

Bird Dog is a certified HUBZone Small Business located in Dickenson County, Virginia, approximately 80 miles from the Bristol, Tennessee Tri-Cities airport. Bird Dog and Unifuse look forward to helping your business grow and continue to work with you to deliver exceptional service and unparalleled value.

Please do not hesitate to contact Jeff or myself with any questions as we enter the holiday season and look forward to a prosperous 2018. Your business and support remain our greatest *asset* – one valued above all else.

Thank you.
